Trade Contractors

With Our New Program Made Expressly for Trade Contractors.

For both Commercial and Residential Trade Contractors, we designed this package for contractors with up to 20 employees and total payroll up to \$600,000.

How is this different than the average program?

The attraction is in our tailored coverages, unbeatable services and competitive prices. And we include 34 coverages above the industry standard.

- Coverage is broader. Limits are higher.
- We talk the same language as you do. From our policies to our employees.
- Ours is a flexible policy with coverages for Property and General Liability.
- Coverage for items to be installed, tools & equipment.
- Limited Care, Custody and Control (That means coverage for property that is either damaged or destroyed while in your care.)

- There's Commercial Automobile and Umbrella Coverages.
- We even have Coverages for Crime, Fidelity, Boiler and Equipment.
- There are flexible payment options, including monthly payment.

Just a minute, you've got this great program, but who are you, anyway?

First and foremost, we are construction specialists. For more than 25 years, The Maryland Insurance Group and the Home Builders Insurance Services, Inc. have built an alliance which is recognized as the nation's authority in specialty contractors' insurance needs.

- The Maryland boasts a Best's rating of "Excellent." Our parent company, the Zurich Group, is an international leader in financial services with \$135 billion in assets.
- And we're the only insurance company with a staff of underwriters, loss control engineers and claim specialists dedicated to construction. That translates into the best coverages and expertise focused entirely on specialty contractors.
- We take great pride in the more than 80,000 plus trade contractors we insure. We know you're special and that's why we named our policy the Specialty Contractors Policy. That means a portfolio product targeted toward you.
- If you're a trade contractor, commercial or residential, you owe it to yourself to go with the experts.

We do the right thing for our customers.
